

Andrew

Design
Studio crGM

Andrew si presenta come un sistema modulare di vari elementi che possono essere combinati tra loro per formare innumerevoli composizioni. La caratteristica principale di Andrew è un meccanismo brevettato inserito nello schienale che, grazie a dei pistoni a gas, permette di alzare e inclinare lo schienale stesso, rendendo così il divano estremamente confortevole. Fusto in legno massello e legno multistrato. Imbottitura in espanso rivestito in vellutino bianco. Cuscini di schienale in poliuretano espanso a tre quote differenziate con densità di 40, 35 e 25 Kg/m³, rivestito in dacron. Cuscini di seduta in poliuretano espanso a quattro quote differenziate con densità di 40 e 35 Kg/m³, rivestito in dacron. Completamente sfoderabile in tessuto, non sfoderabile in pelle e finta pelle. Kit letto non disponibile.

Andrew is a modular system of different elements which can be combined together in order to create many different compositions. Andrew's main feature is a patented function in the backrest that allows to raise and incline the backrest thanks to some gas pistons, thus making the sofa extremely comfortable. Frame made of solid wood and multi-ply wood, upholstered with polyurethane foam, covered with dacron. The back cushions are made of polyurethane foam in three different grades, with density of 40, 35 and 25 Kg/m³, covered with dacron. The seat cushions are made of polyurethane foam in four different grades with density of 40 and 35 Kg/m³, covered with dacron. Fully removable fabric covers, fixed leather and artificial leather covers. Sofa-bed is not available.

Andrew ist ein Sofaprogramm mit modularen Elementen mit verschiedenen Kombinationsmöglichkeiten. Das Highlight dieses Modells ist der patentierte Mechanismus in der Rückenlehne, der mittels Gaskolben die Erhöhung und die Neigung des Rückens erlaubt und maximalen Sitzkomfort garantiert. Das Gestell besteht aus Massiv- und Schichtholz, gepolstert mit Polyurethanschaumstoff, mit Dacron bezogen. Die Rueckenkissen bestehen aus Polyurethan-Schaumstoff in drei verschiedenen Härten mit Dichte von 40, 35 und 25 Kg/m³, mit Dacron verkleidet. Die Sitzkissen bestehen aus Polyurethan-Schaumstoff in vier verschiedenen Härten mit Dichte von 40 und 35 Kg/m³, mit Dacron verkleidet. Stoffbezüge alle abziehbar, Leder und Kunstleder festbezogen. Als Bettsofa nicht verfügbar.

Andrew est un système modulaire d'éléments d'assise qui peuvent se combiner entre eux pour former des compositions infinies. La caractéristique principale du modèle Andrew est une mécanique brevetée qui est insérée dans le dossier et qui, grâce à des pistons à gaz, permet de relever et à la fois incliner le dossier, ce qui rend le canapé extrêmement confortable. Carcasse en bois massif et multiplis finie de mousse polyuréthane couverte de dacron. Coussins de dossier en mousse polyuréthane avec une densité de 40, 35 et 25 kg/m³ et avec trois différents facteurs de rigidité différents, couverte de dacron. Coussins d'assise en mousse polyuréthane avec une densité de 40 et 35 kg/m³ et avec quatre facteurs de rigidité différents, couverte de dacron. Revêtement en tissu complètement déhoussable; en cuir look et en cuir, le revêtement est fixe. Pas disponible en canapé-lit.

Andrew is een modulaair systeem van zitelementen die onder elkaar gecombineerd kunnen worden om ontelbare opstellingen te vormen. Het voornaamste kenmerk van model Andrew is een gepatenteerde mechaniek die in de rug ingewerkt is en die, dankzij gasveren, toelaat de rug omhoog en tegelijkertijd achteruit te zetten, waardoor de bank uiterst comfortabel wordt. Romp in massief hout en multiplex bekleed met koudschuim afgewerkt met dacron. Rugkussens in koudschuim met een densiteit van 40, 35 en 25 kg/m³ en met drie verschillende stramheidsfactoren, bekleed met dacron. Zitkussens in koudschuim met een densiteit van 40 en 35 kg/m³ en met vier verschillende stramheidsfactoren, afgewerkt met dacron. In stof zijn de hoezen volledig afneembaar; in lederlook en lederlook is de bekleding vast. Niet verkrijgbaar als bedbank.

Основу модели Andrew составляет модульная система элементов, комбинируемых между собой, которые могут образовывать бесчисленные конфигурации. Отличительная особенность Andrew состоит в использовании запатентованного механизма, встроенного в спинку, при помощи которого она может опускаться и повышая комфортность посадки, а затем возвращаться в исходное положение. Для производства каркаса используется массив дерева и многослойная фанера. Наполнение из пенополиуретана, обернутого в белый бархат. Наполнение подушек спинки: пенополиуретан различной плотности 40, 35 и 25 кг/м³, обернутый в dacron. Наполнение подушек сиденья: пенополиуретан различной плотности 40 и 35 кг/м³, обернутый в dacron. Полностью съемные чехлы из ткани, несъемные чехлы из кожи (искусственной или натуральной). Возможность изготвить диван со спальным местом отсутствует.

Design
Studio crGM

Fusto in legno massello e legno multistrato con cinghie elastiche intrecciate. Imbottitura in poliuretano espanso rivestito in vellutino bianco. Cuscini di schienale in Piumafib, una speciale miscela ipoallergenica di vera piuma e fibra poliestere siliconata*. Cuscini di seduta costituiti da un inserto in poliuretano con densità di 30 Kg/m³ ricoperto da un trapuntino di vera piuma imbottito a scomparti*. Completamente sfoderabile in tessuto, non sfoderabile in pelle e finta pelle. Kit letto disponibile.

*Manutenzione dei cuscini contenenti piuma: I cuscini contenenti piuma tendono a deformarsi con l'utilizzo. Per mantenerne la forma è necessario, anche dopo un breve utilizzo, battere e sprimacciare ripetutamente i cuscini. Non utilizzare mai battipanni o aspirapolvere. A coloro che non desiderassero seguire queste indicazioni o che volessero un divano dall'aspetto meno vissuto, raccomandiamo di preferire dei cuscini in gomma.

Frame made of solid wood and multi-ply wood with interwoven elastic straps. The upholstery is made of polyurethane foam, covered with dacron. The back cushions are filled with Piumafib, a special hypoallergenic mixture of feathers and siliconised polyfibre*. The seat cushions are made of a foam insert with density of 30 Kg/m³, covered with a feather compartments quilt*. Fully removable fabric covers, fixed leather and artificial leather covers. Sofa-bed is available.

*Maintenance of feather cushions: Cushions filled with feathers tend to change their shape with use. In order to keep their shape it is necessary, even after a short use, to plump up the cushions repeatedly. Never use carpet beater or vacuum cleaner. We recommend to choose foam cushions to those who do not wish to follow these instructions or to have a "used look" sofa.

Das Gestell besteht aus Massiv- und Schichtholz, mit geflochtenen Gummigurten, gepolstert mit Polyurethanschaumstoff, mit Dacron bezogen. Rueckenkissen aus Piumafib, einer hypoallergischen speziellen Mischung aus echter Daune und silikonisierter Polyesterfaser*. Die Sitzkissen bestehen aus einem Schaumkern mit Dichte 30 Kg/m³ mit einer gekammerten Daunenauflage*. Stoffbezüge alle abziehbar, Leder und Kunstleder festbezogen. Als Bettsofa verfügbbar.

*Wartungsanleitungen fuer Daunen-kissen: Die Kissen, die Daunen enthalten, neigen dazu, sich durch Gebrauch zu verformen. Um die ursprüngliche Form zu halten, ist es notwendig, auch nach kurzem Gebrauch, die Kissen wiederholt aufzuschueteln. Keinen Ausklopfer oder Staubsauger verwenden. Unseren Kunden, die diese Anweisungen nicht befolgen moechten, oder die kein Sofa mit solchem "gebrauchten" Aussehen haben moechten, empfehlen wir Polyurethan-Kissen.

Carcasse en bois massif et multiplis muni de bandes élastiques entrecroisées et finie de mousse polyuréthane couverte de dacron. Coussins de dossier en Piumafib, un mélange hypoallergénique spécial de véritable duvet et fibre polyester siliconisée*. Les coussins d'assise sont composés d'un noyau en mousse polyuréthane d'une densité de 30 kg/m³ couvert de véritable duvet broché en compartiments*. Revêtement complètement déhoussable en tissu, fixe en cuir et cuir look. Disponible en canapé-lit.

*Entretien de coussins en duvet: Coussins en duvet ont tendance à perdre leur forme dû à l'usage. Pour en conserver la forme il est nécessaire, aussi après un usage court, de régulièrement battre les coussins. Ne jamais utiliser la tapette ou l'aspirateur. À ceux qui ne désirent pas suivre ces indications ou qui souhaitent un canapé qui ait l'air moins "usé", nous conseillons vivement de choisir des coussins en mousse polyuréthane.

Romp in massief hout en multiplex, voorzien van door elkaar geweven elastische singels en bekleed met koudschuim afgewerkt met dacron. Rugkussens in Piumafib, een speciale hypoallergene mengeling van echt dons en gesiliconiseerde polyestervezel*. De zitkussens bestaan uit een kern in koudschuim met een densiteit van 30 kg/m³ met daarbovenop een in vakken doorstikte laag echt dons*. Volledig afneembare bekleding in stof, vaste bekleding in leder en lederlook. Ook verkrijgbaar als bedbank.

*Onderhoud van kussens met donsruiling: Kussens met donsruiling hebben de neiging door het gebruik hun vorm te verliezen. Om hun vorm te behouden is het noodzakelijk, ook na kort gebruik, de kussens regelmatig op te kloppen. Nooit een mattenklopper of stofzuiger gebruiken. Wie deze voorschriften niet wenst te volgen of een zitmeubel wenst dat er minder "slordig" uitziet, raden wij met aandrang aan voor kussens met koudschuimvulling te kiezen.

Для производства каркаса используется массив дерева и многослойная фанера в сочетании с перекрещивающимися эластичными ремнями. Наполнение из полиуретана, обернутого в белый бархат. Наполнение подушек спинки выполнено из материала Piumafib – специальной, не вызывающей аллергию смеси из натурального пуха и полиэфирных силиконовых волокон*. Подушки сиденья: стеганные по отсекам, наполнение из натурального пуха с вставками из полиуретана плотностью 30 кг/м³ *. Полностью съемные чехлы из ткани, несъемные чехлы из кожи. Исполнение дивана в версии со спальным местом: возможно

*Эксплуатация подушек с пуховым наполнением: В процессе эксплуатации подушки с пуховым наполнением могут деформироваться, во избежание чего их необходимо слегка взбивать вручную даже после непродолжительного нахождения на диване. Использование в этих целях пылесоса или выбивалки для одежды категорически запрещено. Если клиент не планирует следовать данным инструкциям и хочет, чтобы подушки сиденья и спинки проминались по минимуму, посоветуйте выбрать наполнение только из полиуретана, полностью исключив натуральный пух.
